

Transplant Scorecard No.44 September 2019

The December 2019 Transplant Scorecard reflects a further decrease in the number of transplant recipients in Australia for the 12 months, Jul18 – Oct 18 – Sep 19 (1460) to Jan 19 – Dec 19 (1444). Since the establishment of Organ and Tissue Authority (OTA), 12-monthly transplant recipients per million population have increased from 39.4 (Dec 08) to 56.6 (Dec 19), an increase of 3.9% per annum. Australia's ultimate goal of 90 transplant recipients per million population can only be achieved if proven leading performance solutions to organ donation and transplantation are fully and effectively implemented. Given the aim to "establish Australia as a world leader in organ donation for transplantation", ShareLife Australia is calling on the Government to completely implement the internationally recognised proven solution to achieve world's leading performance.

		·····,	Transplant Total Transplan Recipients per Recipients p.a Million Pop p.a.	
Target number of transplant recipients from deceased set by the Leading Transplant Countries			90 2,297	,
Actual number of transplant recipients from deceased donors for the period Jul18 to Jun19 in Australia			902,29756.61,444
